

Meet The Editor

In addition to managing our Tops card fundraiser and being our recording secretary, Denise also composes our monthly newsletter. She is always looking for new articles. You can write one any time, by e-mailing them directly to her so she may easily enter it in to "The Chronicle" Grove Street Christian Church's, newsletter and written source of information. E-copies are also e-mailed out and are available on our website. This adds convenience and a greener approach to publishing our monthly periodical. Thanks to Denise for all her hard work and dedication to our written media modalities!

A good use for tech

You, I and Gutenberg all know the importance of the written word, but in today's world the e-word is fast eclipsing the printed page. Rather than railing against this trend, Grove Street Christian Church has embraced this change. We have a Facebook page with a preview and links to it on our website. We still understand the importance of publishing a hard copy news letter for those members and guests who don't have a computer or prefer to read from a printed page. In addition to emailing E-copies we also make PDF versions available on our website just in case you want to view a back issue. We have also integrated Power Point presentations and video clips into our services. These newer formats are exciting and a great way to get God's word out. E-versions of documents have the added benefit of having direct links to additional web pages and information. We hope you find it useful too.

Communications

Grove Street Christian Church's multi-media ministry is dedicated to sharing the gospel using audio, video, internet and print in unique ways around the community.

Our efforts bring a blend of music and videos that help to share the message of Christ.

Our mission is to bring together the technical and creative people in the world of multi-media in a Christian environment and to share experiences and a faith in Jesus. Then to nurture creative input that reaches out to the world with the message of Christ.

If you like working with computers, have an aptitude for the written word or have artistic ability with music painting or drawing. This may be something you'll want to consider doing with us. There's something for everyone at GSCC. Composing Power Point Presentations for worship and preparing video clips for lessons are just a few examples of some of the fun activities people enjoy doing in this ministry. Thanks for checking us out. Join us any time, but until then, see you on the Blogosphere!
